

INTRODUCING THE INSTANT WARM HANDWASH SYSTEM

According to the CDC, frequent handwashing with soap and water is critical to safeguard workers and consumers from viruses and bacteria such as Coronavirus, e.Coli, Salmonella, and more. The InSinkEerator Instant Warm Handwash System delivers instant warm water that boosts the hydrophobic effect of soap molecules, helping soap remove the pathogens, fats, oils, and grease that stick to your skin, all while providing employee comfort, water and labor savings.

System Benefits:

- Dispenses at least 40 twenty-second, instantly warm handwashes at 100°F or higher per hour²
- Sanitary, touchless design
- Saves water, time and money
- Costs less than \$0.01 per wash³
- Hot water tank and faucet in one space-saving system
- Easy to retrofit, the system can be placed in numerous locations (7 ft. cord included)
- Minimal requirements: sink, cold-water line, 115-volt/15-amp electrical outlet
- Faucet can be splash or deck mounted
- Hard-wired motion sensor in faucet; No battery to fail
- Code compliant with FDA, CDC, ServSafe
- US Patent No.11203857
